ABOUT THE PRODUCT

This vinyl covered foam play centre set has a variety of ramps, steps and tunnel. The tunnel allows children to play in and about the house. The house allows a fantastic location for children to play or hide. The three entrances allow easy access and exiting from multiple sides. The bright colours of the play pieces make the centre appealing to curious young minds, while the steps, slides and different shapes provide a variety of different angles and play challenges.

Children will experience such activities as crawling, sliding and negotiating steps as they utilise the Foam Play House Set. All 9 vinyl covered foam pieces have hook and loop fastening pads, to allow for a solid join when fully assembled. The outer covers of the foam parts are also strong and easy to wipe clean, while the foam is soft for safety but firm enough to bear children's weight and maintain its shape.

These foam shapes can be used indoors, or outdoors but in a roofed setting. Not to be exposed to wet weather or the elements. To protect the soft play and because of the possibility of structures of different heights which can potentially be built, it is strongly recommended this product be used on a soft fall or padded flooring surface.

The Foam Play House measures 270(L) x 152(W) x 120(H)cm and comes in assorted colours.

Ages 12+ months.
